

W as a family enjoy K-LOVE and my husband listen to K-LOVE on line at work. We would be very sadden if the FCC took K-LOVE away. And if it was taken away I don't want to even think what other type of non family radio broadcast would air. At least with K-LOVE I know all ages can listen won't be offended by language or content. I truly believe many American want a safe and wholesome station, K-LOVE provide this for our family and our community.
